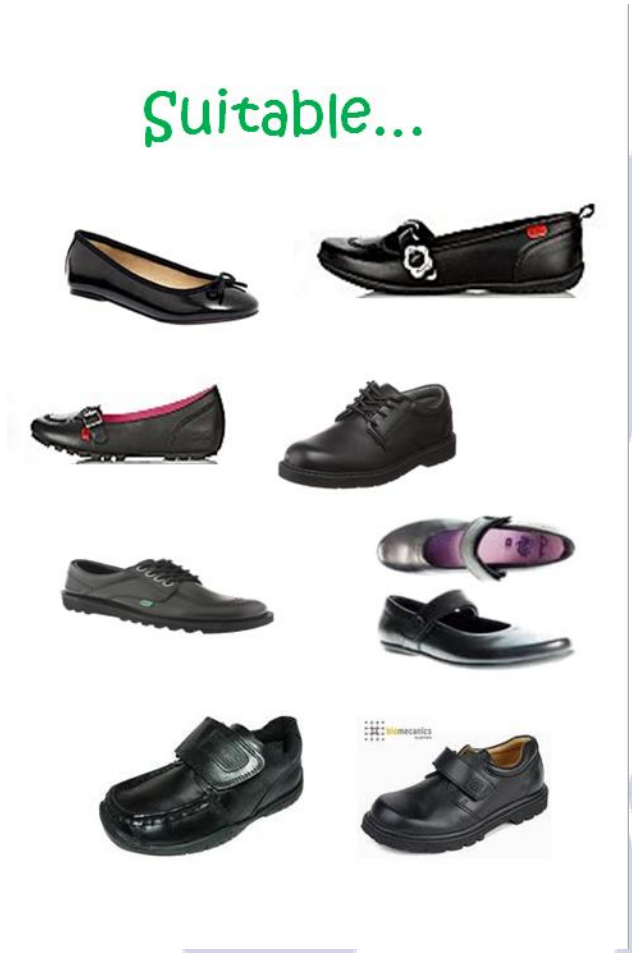
Shoes Fit for School

In response to feedback from parents/carers, we have decided to provide parents with a guide sheet to help them purchase appropriate school shoes for their children. You will see from the illustration on the left that we are dealing with a wide variety of styles of shoe, many of which are designed to look like a trainer. As a school, we are very mindful of the expense incurred buying and replacing uniform and therefore it is important that parents/carers do not waste money buying unsuitable shoes.

- Many of the boys' shoes are designed to look like trainers and we are asking that any shoes for boys are not styled as trainers.
- Boots are not permitted.

We are asking that all shoes meet the following criteria:-

- A firm sole
- A water resistant/proof upper leather like material
- Black with minimal decoration.


Thank you in advance, for your support in this matter.
