Well Being at Wiseman embeds Citizenship, Careers and PSHE. It is taught in a 5 pronged approach within the new 2 week timetable: tutor groups, lessons, assemblies and drop-down days to create outstanding provision. In addition there is an opportunity for pupil voice enabling students to ask questions and explore ideas. With this holistic vision in place students should be able to attain even greater academic success in the future and feel confident they are prepared for the world after Wiseman. Positive outcomes should be seen across the school in a whole range of ways: eg behaviour for learning; respect and tolerance; independent learning; creativity and resilience. This 5 pronged approach ensures that trained professionals deliver the programme at all times thus ensuring top class learning opportunities and meeting our statutory duties. The programme can be quality controlled and assessed without levels. Students will work towards a bronze, silver or gold award at the end of the year.
