

Cardinal Wiseman has the best school community in the country. This is because of many factors that in turn create a school community that is approachable, welcoming and for everyone.

Firstly, it is because of the Headteacher, Mr Kiely who makes an effort to listen to the students and make the community as welcoming and approachable as possible. Unlike other schools the teachers and staff are around the campus and speak to the students, ask them how they're doing at school and if everything is alright. The staff also go around Greenford after school to make sure that all students are home or on their buses to make sure that they are safe and sound. This makes this school community a safe one (therefore a good one) as the teachers actually care about their students, unlike other school whose teachers and headteacher sit in an office all day, not communicating with their students very much.

Also, another reason why Cardinal Wiseman has such a great school community, is because we have every few months, something called 'Wellbeing Week'. This is a week where students have the possibility to learn about mental health and hobbies or activities that contribute to a healthy mental state. In my opinion, I think that this is predominantly why this community is the best as the teachers and staff put time and energy to teach about mental health, something not a lot of schools do.

Another reason why Cardinal Wiseman's community is so good is because of the departments and the array of options and subjects to choose from. For example, the departments have many trips and outings, such as the languages department: if for example choose Spanish as your modern foreign language, you have the chance to go to Spain. Also, if you choose drama as your creative subject, you get to go to the theatre a few times. This makes Cardinal Wiseman's community such a great one as it gives all its students an opportunity to have the best experience with that subject possible, which not a lot of school do.

Lastly, Cardinal Wiseman's community is the best because when the y Year 11's is preparing for and actually doing their GCSE's the teachers make an effort to provide them with breakfast or a snack during morning break. I haven't seen this kind of effort and kindness in other schools, which is what makes the community so caring. In addition, the teachers take time out of their own free time to help a student if they are struggling with a certain topic whereas other schools only have a specific time of where they can ask a teacher for help if they need it.

In conclusion, Cardinal Wiseman's community is the best in the country as it has the best subject departments, teachers and students, who are always respectful and mindful of each other. This creates a happy and approachable community for the students and teachers as they can grow academically as well as spiritually. This is why the community is so great.
