

Dear Parent/Carer,

You are invited to attend the Year 10 Parents' Information Evening on Thursday 20th September at 6pm. In order to ensure that your child achieves to their full potential, we would like to present to you an outline of the following:

- Overview of the assessments, pre-public exams and formal examination procedures for the year
- Revision and exam preparation
- Support at home and at school for your child

Feedback from previous parental surveys indicated that parents would like the opportunity to engage more actively in their child's education and be aware of when they may need additional support at home.

Years 10 and 11 are crucial years and for many students and their parents, it can become a stressful time. Having a conversation with your son or daughter about what they enjoy, what they are good at, what motivates them to learn, the environment they want to be in and their preferred learning style can be the key to their success.

Information will be presented from the English, Mathematics and Science departments on how your child can make the best progress possible this year.

We hope that you will be able attend this important meeting. Students do not need to attend.

Yours sincerely,

A M McLoughlin

Mrs A M McLoughlin

Assistant Head Teacher
