

Marking Assignments

Message All

You can message all the students who have been set a particular assignment by using the Message All function of the Assignment Manager. To Message students, select the assignment and the from the action cog, choose the Message All option.

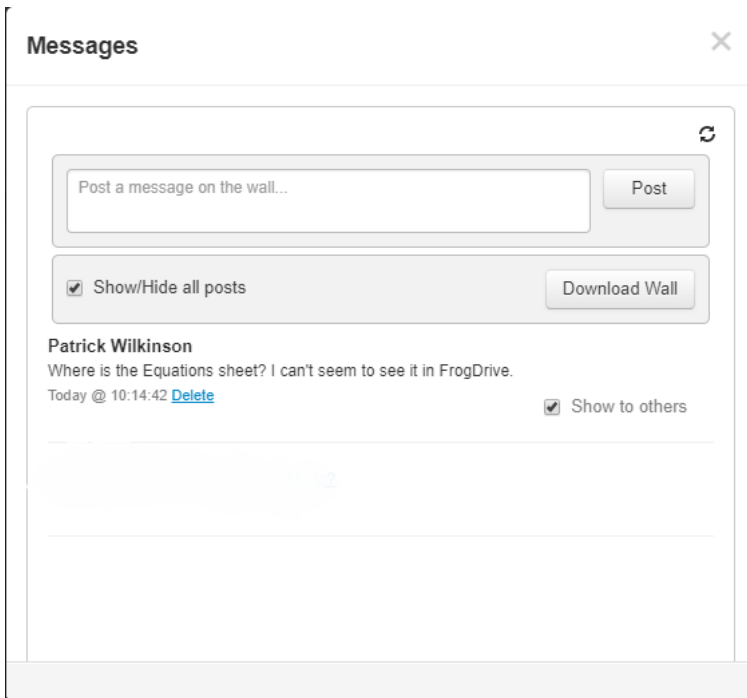

View Comments

Students can communicate with teachers by leaving comments on an assignment. Students leave comments on the assignment 'Wall' which is essentially a message for the teacher. Teachers can easily see whether students have left comments by looking in Assignment Manager. Selecting an assignment will show you all recipients of the assignment and any students who have left a comment will have a blue speech bubble next to their name with a number in it. The number represents how many comments this students has made.

Open Assignments / Physics Revision		
Recipient		Mark
Patrick Wilkinson		None

Clicking on the blue speech bubble will open up the messages/comments that student has left.

View Instructions

To view the instructions of an assignment that you have set, simply click on the blue information to the left of the assignment. Students also have the ability to do this when viewing their assignment.

Assignment Name	Subject
 End of Term Maths test	Mathematics
 Physics Revision	
 Instructions: A quick quiz for a recap on last semester.
