

Why my school is great?

I go to Cardinal Wiseman and these are all the reasons I love it there. All the teachers are so friendly and welcoming to all the students. They all care about us so they walk around the area to make sure we are safe after school and that go to our bus stops straight away. They also are always there if we have a problem if it is to do with our studies to our personal life and we are always able to go and talk to them. They always have our best interest at heart like when they tell students to come to tuition if they didn't do particularly well in a test. The great thing about the teachers are that they push us to the very best we can. They make sure we are able to get the best marks we can. They also understand the drastic change from primary to secondary school so they give you a month amnesty to get use to the sudden change. The teachers even help student from different countries whose first language isn't English.

Also great thing is the respect everyone has for each other. In some school the teachers are afraid to stand outside their classroom as they are afraid they might get pushed over by the students but in our school all the teachers stand outside as they know they won't get pushed over by the students and all the students are always polite and smile and say "Hello" to teachers and some teachers even stand on the busy stairs and know they won't be pushed over by students. They also help you if you get lost on your first day of school. Also it isn't only the teachers the pupils respect but they respect each other. All of the students show each other respect and try to help other like waiting for them to pass if they're at the floor their lesson is on. All pupils try to welcome new students in their year.

Another reason my school is amazing is that they involve the student. For the year 6 introduction evening the school got the children to give parents the tour around the school. They also give students talents to help the like they have a program called "YTA" which are youth travel ambassadors which helps student with their public speaking. They also have different club which you can attend for free so if you want to play the piano but you don't know how you can just attend one of these clubs with have professional teachers to help you.

One more reason is that a lot of the teachers attended this school when they were younger so they know about what the students like and in what environment they learn better. Also the school has a great community which makes you always feel like you are special but part of something which is big. My school always makes you feel really included.
