

Wiseman Career Lecture 1

On Monday 11th September we had an absolute pleasure of welcoming our Ex-Wiseman student, Ceri Giordmaina, who, as Mrs Coghlan, is now a solicitor working for Portner. She was able to share with the students her professional journey from school, through her LLB at The Royal Holloway, University of London, her trainee years and all the way to becoming a fully qualified solicitor. It was so good to see how quickly our students related to her, as someone who not that long ago sat in the same seat and wore the same uniform. Mrs Coghlan passed on so much advice and tips on how to be successful in the application to study Law but also about the new routes into the profession through a Degree Apprenticeship. We also learned that there are so many other important jobs that Law Graduates take on within the legal system, it is not just about being a solicitor or a barrister. We are so grateful to Mrs Coghlan for the time she gave to speak to our young students. She definitely impressed quite a few and made them consider Law as a possible career.
