

SCIENCE WEEK

EGG DROP!

$F = G \frac{m_1 m_2}{d^2}$

$F - E + V = 0$

$i\hbar \frac{\partial}{\partial t} \psi = \hat{H} \psi$

$\phi(x) = \frac{1}{\sqrt{2\pi\sigma}} e^{-\frac{(x-\mu)^2}{2\sigma^2}}$

$E = mc^2$

$\frac{\partial^2 u}{\partial t^2} = c^2 \frac{\partial^2 u}{\partial x^2}$

$\frac{df}{dt} = \lim_{h \rightarrow 0} \frac{f(t+h) - f(t)}{h}$

$ds \geq 0$

Great fun was had in the Egg Drop challenge on 13th March as part of the Science Week activities.

Many thanks to Mrs Ferrante for organising and running this event.
